

TEAMWEAR AT
ROMIDA

Who We Are

Romida has been supplying sports equipment for nearly 30 years, driven by a genuine passion for sport. We are a specialist sports shop, run by people who live and breathe sports and take real pride in their craft. Our expert staff are always on hand to offer knowledgeable advice, backed by extensive stock levels, competitive pricing, and a commitment to outstanding customer service

Our Mission & Vision

There are always two aspects to any sport. Firstly the pursuit of excellence, and the quality of our goods reflect that. Secondly, and most importantly, for the fun of it. Our biggest goal as a company will always be to encourage participation – bring people together, reinforce the values of teamwork and create more active and social communities.

Our Service

Our Teamwear Department specialises in providing high-quality, custom-branded clothing for clubs of all sizes. We offer professional embroidery, sublimation & heat-pressing services to personalise club garments with logos, names, and sponsors, ensuring a smart and consistent look on and off the field.

We provide every club with a fully customised online store, hosted on our website, featuring your approved teamwear, branding, and agreed pricing. This allows players, staff, and supporters to easily browse and purchase official items at their convenience, with a simple and secure checkout process.

In addition to individual orders, we also support bulk purchases for teams, staff groups, and club-wide requirements. This ensures a consistent look across all garments while offering an efficient solution for larger orders.

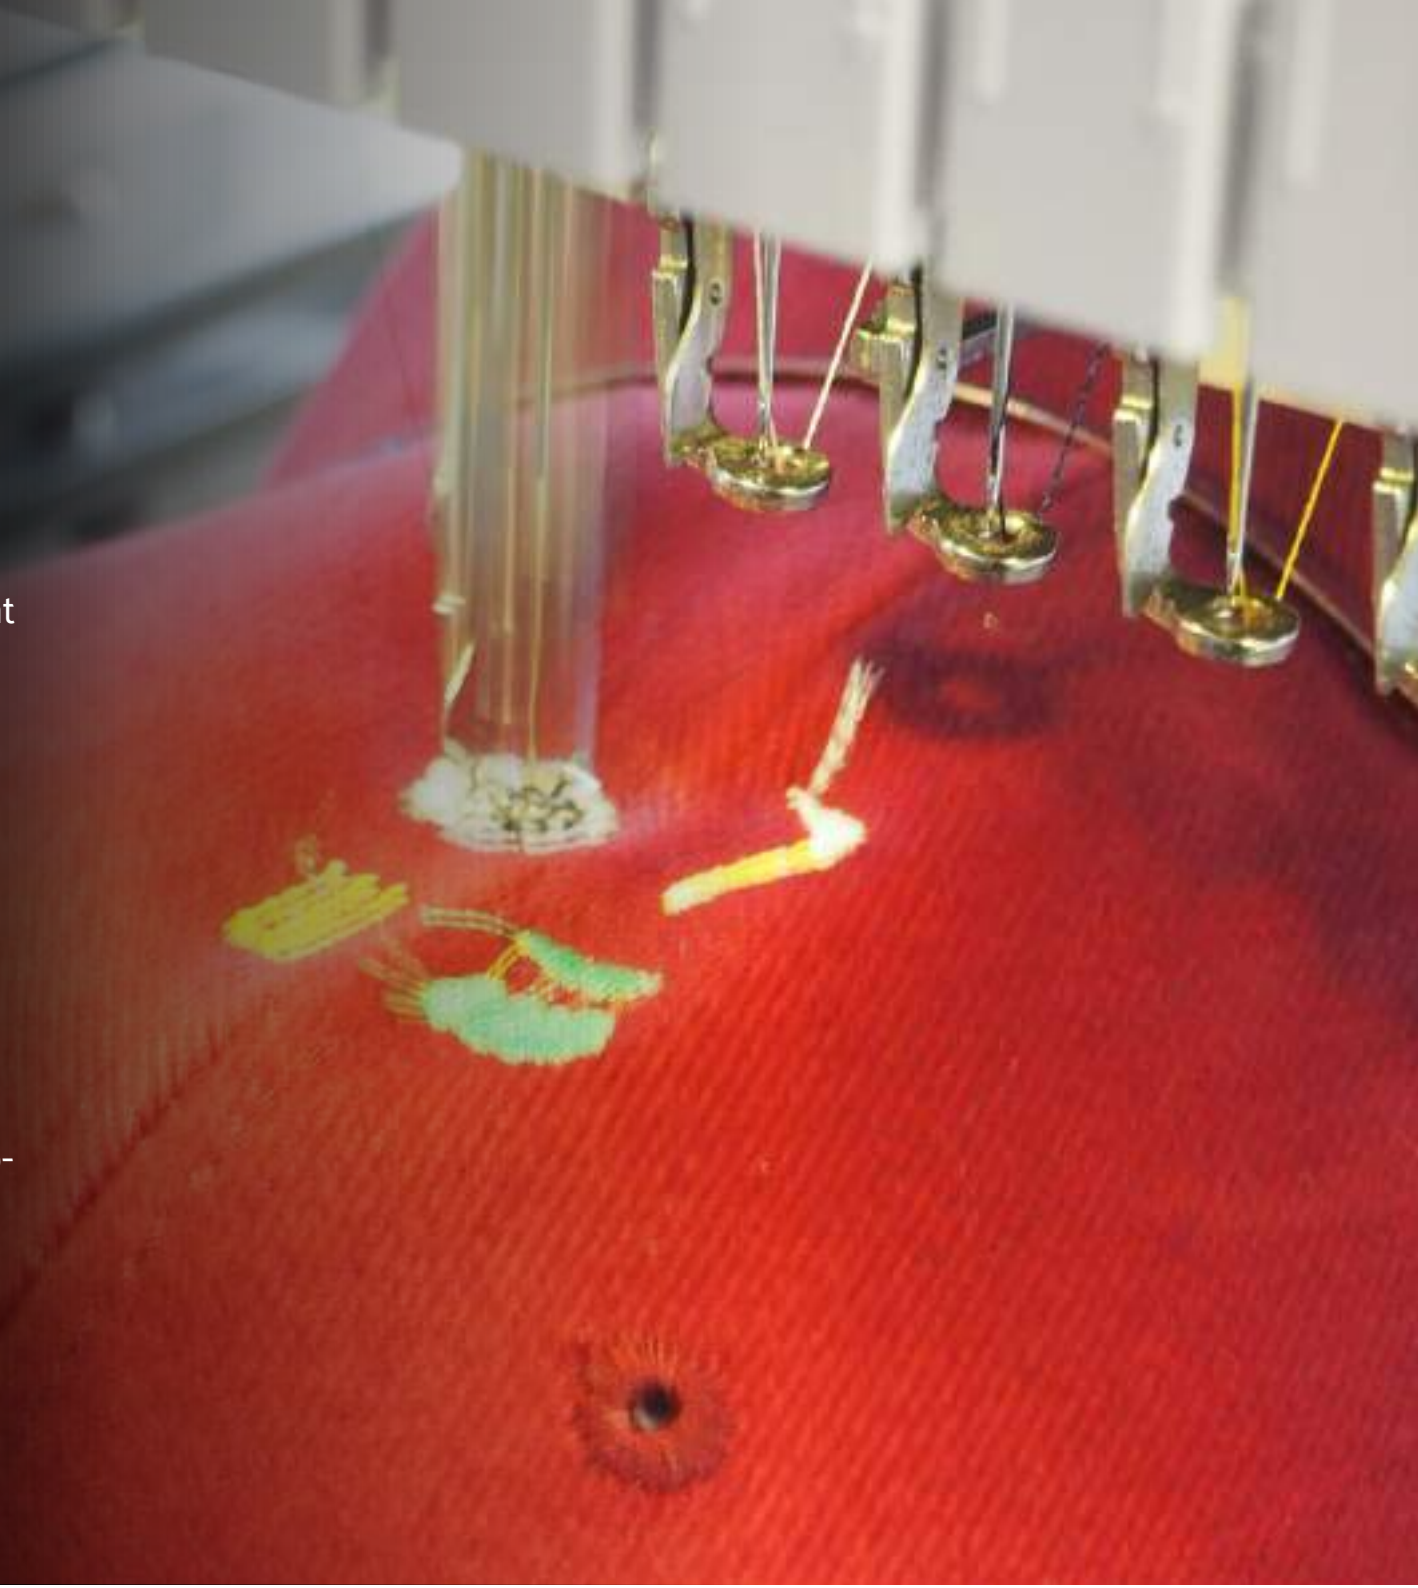

Our end-to-end service covers everything from order placement through to production and delivery, giving your club a reliable, professional, and hassle-free teamwear solution.

Our Service

We supply teamwear sourced from trusted, well-established manufacturers known for producing high-quality, durable sports and performance apparel. This ensures every item we offer meets strong standards for comfort, reliability, and consistency, suitable for teams at all levels.

Rather than holding large amounts of stock, our teamwear is provided on a made-to-order basis. This means each item is produced specifically for your order, allowing for a wider choice of garments, sizes, and styles, as well as the option for customisation where required.

This approach ensures you receive fresh, up-to-date products directly from the manufacturer, tailored to your requirements. It also means that lead times can vary depending on the supplier and production schedule, but we always work closely with our partners to fulfil orders as efficiently as possible.
